William Decatoire

Junior Software Engineer | Python Backend Developer

Paris, France | +33 6 58 67 59 90 | willdec93250@gmail.com
github.com/WYLLLY | portfolio-wheat-five-66.vercel.app

Python developer focused on backend APIs, PostgreSQL transactions and automated testing. Built personal projects in payment simulation, durable task execution and machine learning inference using FastAPI, SQLAlchemy and Docker.

TECHNICAL PROJECTS

Personal projects

Payment & Ledger System | GitHub

Python, FastAPI, PostgreSQL, SQLAlchemy, Alembic

- Implemented an immutable double-entry ledger, atomic transfers and idempotent APIs with database constraints and deterministic account locking.
- Built asynchronous payments with a transactional outbox, worker leases, bounded retries and reconciliation against a simulated provider.
- Tested financial invariants, concurrent requests and failure recovery with real PostgreSQL integration tests.

AI Task Execution Platform | GitHub

Python, FastAPI, PostgreSQL, Redis, HTTPX

- Built a durable task queue with cancellation, worker leases and fencing; retained idempotency responses support replay after failures.
- Implemented document-analysis workflows, cost accounting and Server-Sent Events (SSE), with PostgreSQL polling during Redis outages. Provider tests use simulations.

Fraud Detection ML Service | GitHub

Python, scikit-learn, PyTorch, FastAPI, NumPy

- Compared logistic regression and a CPU MLP on 60,000 synthetic observations; fitted preprocessing on training data and froze model selection before test evaluation.
- Served a versioned model through a local inference API and built a read-only Payment scoring CLI. Experimental scores do not establish real fraud accuracy.

TECHNICAL SKILLS

Languages and APIs: Python, SQL, FastAPI, Pydantic, REST APIs, asyncio
Databases: PostgreSQL, SQLAlchemy, Alembic, Redis
Testing and delivery: pytest, Ruff, mypy, Pyright, Docker, Docker Compose, Git, GitHub Actions
Machine learning: scikit-learn, PyTorch, NumPy, model evaluation, API inference

PROFESSIONAL EXPERIENCE

KILO Shop | Sales Assistant | 2023–2026
UNIQLO | Sales Assistant | 2021–2023
McDonald’s | Crew Member | 2018–2019

EDUCATION

Bachelor’s degree in Philosophy (Licence), Sorbonne | 2021
Baccalauréat STMG | Lycée Clemenceau, Villemomble | 2018

INTERESTS

Philosophy, literature, music, boxing, weight training.
